Cimulus Signs Product Development Agreement with Precisia

Ann Arbor, MI -- August 23, 2005 – Cimulus, Inc. has signed a product development agreement with Precisia LLC. Under the agreement, Cimulus will work with Precisia to develop a new version of its on-press video inspection system, used for performing QA analysis in real time during the printing process. The new system will join the existing suite of production and validation tools to further enhance Precisia's quality assurance program for their unique conductive-ink printing processes.

About Precisia

A wholly-owned subsidiary of Flint Ink Corporation, Precisia LLC provides conductive and advanced printing inks, and electronics technology and processes. Precisia's offerings include essential materials and completed devices for radio frequency identification (RFID) and other printed electronics applications, including smart/active packaging, labeling, and printed electronics. For more information, please contact: Paul Carnarvon, director of sales and marketing, at +1-734-205-6600, or conductivesolutions@precisia.net, or visit www.precisia.net.

About Cimulus

Based in Ann Arbor, Michigan, Cimulus provides on-demand programming and IT services, focusing on technical systems for manufacturing and business. Cimulus has extensive experience in product development for industrial markets, with electrical and systems engineers on staff along with its software development professionals.
