### **Cimulus Signs IT Services Agreement with Focus1 Data**

Ann Arbor, MI -- August 8, 2005 -- Cimulus, Inc., has signed a services contract with Focus1 Data to provide custom technical and training services. Under this agreement, Cimulus will work with Focus1 to review and enhance its mission-critical data processing systems. This work is part of a broader effort by Focus1 to expand its capabilities and offerings for its clients in the collections industry.

### **About Cimulus**

Based in Ann Arbor, Michigan, Cimulus provides on-demand programming and IT services, focusing on business applications for efficiency and accuracy. Cimulus specializes in fast, high-quality programming for Windows and the Internet, but also provides custom training and consulting for a variety of platforms and technologies, including legacy applications.

### **About Focus1 Data**

Focus1 Data, located in Dearborn, Michigan, is an industry-leading provider of print and mail services for the collection industry. Focus1 employs a state-of-the-art system employing high-speed printing and customization services, which allow its customers to produce and deliver high quality and highly effective letters. With the ability to print and deliver over a million separate letters each month, Focus1 offers a vast array of standard and specialized features which sets it apart from its competition.
